

EXENSE

EXENSE

the uncomplicated and smart harness for beginners

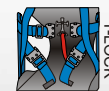

Exense - the uncomplicated and smart harness for beginners

The EXENSE harness was developed with beginners in mind. It is especially simple to operate and extremely reliable, without compromising the renowned comfort of the Woody Valley harnesses. It can be adjusted by its clear "one-click" buckles which are very simple and fast. The annoying closing and adjusting of diverse belts, which often confuse beginners, is no longer a problem. The EXENSE is thus perfectly suitable for training on beginner slopes and beyond!

- ▶ side pockets from high-strength net fabric
- ▶ own pocket for the radio
- ▶ resistant to abrasion - protective plastic film at the lower surface of the harness is dirt-deflecting and easy to clean
- ▶ signalling whistle is integrated into the buckle of the shoulder strap fixing
- ▶ rescue container under the seat
- ▶ new, futuristic design
- ▶ security card at the shoulder strap for a fast first aid access in case of emergency
